Tupper's Parts Sale	Page 12

*President's Message*

Hello Stampede City Model A Ford Club,

Cool mornings, getting dark earlier and earlier at night, back to school...must be September! Perhaps my favorite month for driving an old car with wonderful fall colours and after a frost or two, very few bugs.

Come on out to the Club this Wednesday as we resume our monthly meetings and hear about how progress is going on our latest club car project and see how everyone's summer has been. I know our family was very busy with lots of fun activities and like usual, the summer seemed to fly by...

I look forward to seeing everyone this Wednesday.

Sincerely,

Gord Rouse

Stampede City Model A Ford Club  
Mission Statement

The SCMAFC is devoted to the restoration and preservation of Model A Ford vehicles to protect our automotive heritage for future generations. Membership initiatives and objectives are demonstrated through workshops, tours and participation in community events.

General Information

Meetings are held on the second Wednesday of each month (Sept-June), normally at the Club Garage at 7:30 PM.

Mailing Address:

Stampede City Model A Ford Club  
1411 Southdale Place S.W.  
Calgary, Alberta, Canada  
T2W 0X8

Web Site: [www3.telus.net/scmafc/](http://www3.telus.net/scmafc/)

Email: [scmafc@telus.net](mailto:scmafc@telus.net)

Membership fees are \$35. per family per calendar year.(add \$20. for mailed Script)

The Stampede City Model A Ford Club Publishes the "Ford Script" monthly (except July and August). Articles appearing in the "Ford Script" may be reprinted provided credit is given. All Information in the "Ford Script" is provided for your enjoyment and edification only. No one associated with the "Ford Script" can be held responsible for errors, omissions, or misinterpreted information even though all efforts will be made to ensure correctness of the content.

**SCMAFC GENERAL MEETING**  
**June 13, 2018**

Vice President Colin Outrim called the meeting to order at 7:30 PM welcoming the group of 44 members. We welcomed guest David Clayton of Personal Touch Car Care, Don White and Maurice Jones. Bill McPhail is our newest member. Bill recently acquired a Model A that had been restored some years ago. Murray arrived at his usual time.

**Secretarial**

*Moved that the minutes be approved as read. Lobley/LeBlanc Carried*

The new Restorer has arrived along with bank statements and a fundraising request.

**Membership**

98 renewals have been received. We are complete.

**Publications**

Thank-you to Jeff for the color copies for our members getting hard copies.

The Ford Script is at 20 pages – the largest since September 2017.

Our advertising is down \$25 in comparison with last year.

Copies of the Tupper Estate Inventory are available.

**Capital Assets****1. Tupper Estate**

The Tupper donation to the club was discussed. On May 12 four members viewed the cars selecting one along with a trailer of spare parts with the intention of having enough to restore the coupe. The goal is to complete the restoration faster than we did the AA (17 years). The estimated time is three years. Colin suggested that we review the progress annually, perhaps in June determining next steps.

Ron Rigby was commended for the work he did in preparing the inventory and presenting the typewritten list for club members.

Ron suggested that the project will yield good technical topics helping Mike Hill in preparing the talks for the meetings.

Projects like this provide the opportunity for members, new and old, to work together learning about the Model A and completing restoration of a Model A. We need participation from club members to make this work. The AA truck was done to Blue Ribbon standards Ron reported. Ron said we would do the coupe to Red Ribbon (driver) standards. Club members could take parts home and refurbish them bringing them back in the spring (when it is warm).

The Tupper sale is August 19 as advertised in the Script. The proceeds of the sale go to the Tupper family.

**Treasurer**

Brian LeBlanc reported that the club is in good financial condition. We are in better shape than we were last year at this time.

**Tours & Activities**

The schedule is in the Script. Gary Callander is offering a Highwood Pass tour – details in the Script. The Museum of the Making tour has to be rescheduled.

Rosebud Theatre is doing the Amish Project in August. If there is interest, Russell will organize an overnight tour. An e-mail is forthcoming.

Russell reviewed the items in the Script. Updates are coming out all summer via e-mail.

Keith Robinson announced the tour to Okotoks Ford for their show'n'shine. We go in appreciation for Woodridge providing us meeting space. The tour meets at Keith Robinson's in Springbank at 9:30 am to arrive at Okotoks Ford by noon. There will be a BBQ and door prizes.

The Beverly Centre tour on June 12 was a success. The majority of residents came out and the cars were much appreciated. The cars inspired the residents to think back to their youth.

### Future Tech Talks

We need ideas for the fall. The goal is to schedule four months ahead. Mike Hill wants ideas from the club members. The talk does not have to be Model A related; the Viking talk was well received.

Dave Clayton of Personal Touch Car Care invited the club to a show'n'shine and BBQ at his acreage on June 30. The show is from 10 am to 2 pm with the BBQ from 2 pm to 4 pm. The event goes rain or shine. Russell will send an e-mail with the details.

### Old Business

1. Safety Check  
Completed forms are available from JR. Paul reported that the event went well with a good turnout. Thanks to Jeff and Troy for their work as short order cooks.
2. Digital Archive  
Colin Outrim has spoken to Al Friesen who has compiled a large collection. Colin is working with Jeff Brooks to develop an approach to the project.

### New Business

1. Movie Opportunity  
Emmanuel Cohen was contacted by a movie company representative, Dan Gordon, looking for cars. His contact wants a club liaison to arrange for cars. Russell Moore, Keith Robinson and Brian LeBlanc volunteered.

The meeting adjourned at 8:20 PM.

### Editor's Notes

We have had a great summer for our various club activities and now the weather forecast looks cool for the next while. Please refer to Russell Moore's list of remaining events for 2018 on page 13 of this edition.

Many thanks to the members that have shared their photos and stories with me for inclusion in this September issue. This is the only time of the year that I have a surplus of material to choose from.

Although we did not get our roadster out on a tour this year we did participate in some events which we really enjoyed.

Enjoy the fall touring and stay safe out there!

Al Friesen

## TECH TALK

It is almost that time of year again. Time to consider putting the A into winter storage.

Over the years I have preached about using a check list to ensure that all tasks are completed. I am sure you all remember. One item that requires special treatment is the battery. It should be removed from the car and stored where it can be recharged from time to time. Keeping the battery charged makes spring starting so much easier. If the battery is left in the car and freezes it could split and spill acid on the battery box and the floor.

Another problem with winter storage is mice! They can get into the strangest places. I even found a nest in #2 cylinder!! How it got there is a mystery. The only access would be through the exhaust or carb. Most likely is the exhaust. To prevent entry the pipe should be capped. A Kurig container fits the tail pipe nicely. A piece of duct tape across the cup will hold it in place and stop the mice chewing through the plastic.

Plugging access through the carb could involve using a tin can to cover the intake. An original air filter has openings large enough for a mouse to get through. They seem to get through even the smallest openings. Just don't forget to remove these before trying the the first start. Add these to your check list.

*Sid Gough* - Technical Editor

---

### NEWS FROM THE PAST by Jim Callander

#### 40 Years Ago, September, 1978 President – Leo Desautels

- There was \$193 in the club treasury.
- It was not a good summer for events , the campout was cancelled due to lack of interest, the Basaraba barbecue was rained out.

And also the Edworthy BBQ did not happen.

- Denis Martel gave an excellent demonstration on rebuilding water pumps.

#### 30 Years Ago , September, 1988 President – Trevor Dumville

- The Callander's drove the Tudor to the NW Regional Meet in Eugene, Oregon in the summer.
- The drywall in the club garage was completed and was soon to be painted.
- The club purchased some Babbitting equipment from Stub Stafford (ladles, pot scrapers, file and stove).

#### 20 Years Ago, September, 1998 President – Ted Loble

- 8 members and 6 Model 'A's drove to the NW Regional meet in Surrey, B.C. in the summer.
- Sid Gough received the MAFCA Award Of Merit for the editing of our monthly newsletter.
- Helen Robinson organized the Fall Colours tour on Sept. 29.

#### 10 Years Ago, September, 2008 President – Yvon Picot

- A eulogy to John Robakowski, by Randy Dulmage, was published in the September newsletter.
- Tours in September were made to Rafter 6 Ranch, Fall Colours tour to Elbow Falls area, and to the Canadian Museum of Making west of Cochrane.
- Glenn Smith gave a talk on valve covers, repro hubcaps, and the problems with 2 bladed fans.

## October Meeting and Tech Talk – Auto Detailing

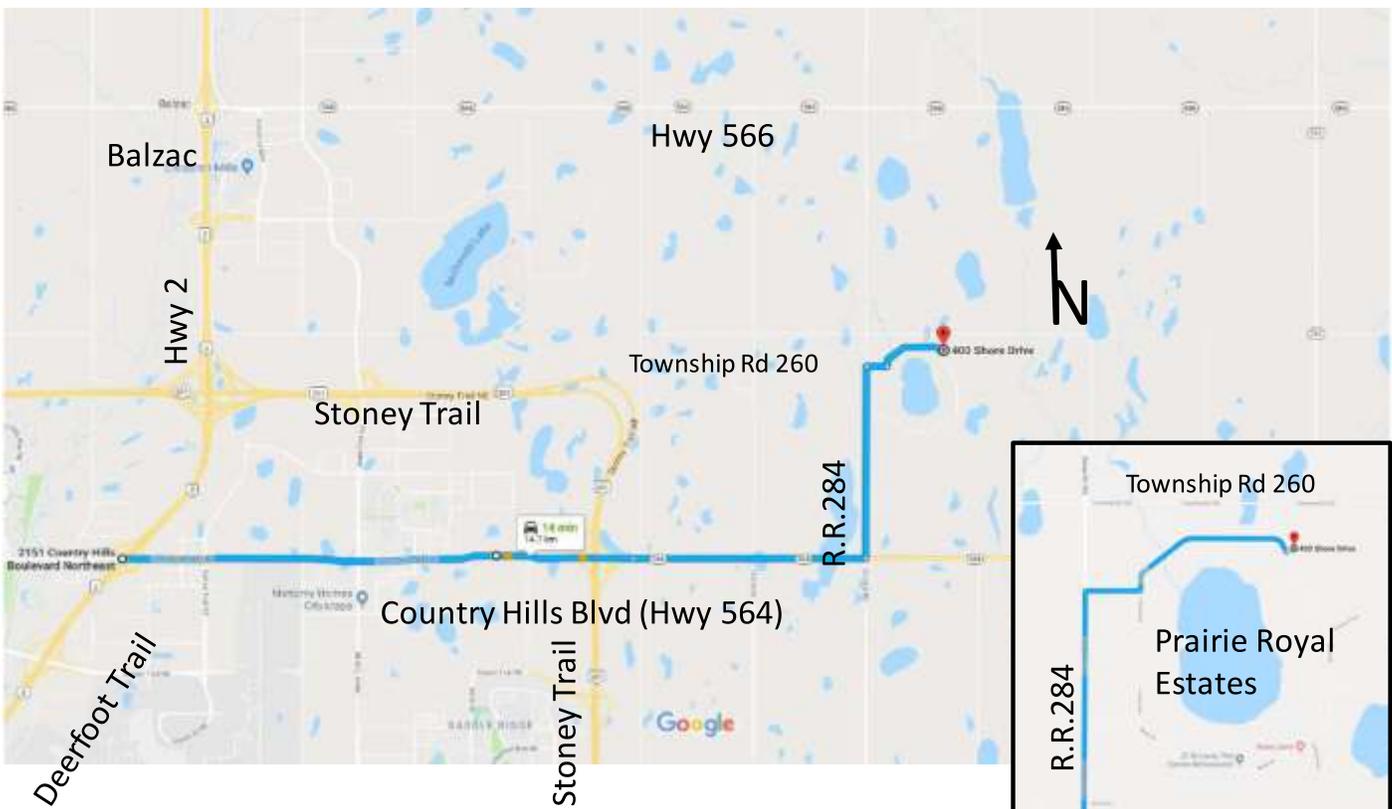

Our October 2018 meeting will be hosted by David and Lori Clayton from Personal Touch Car Care at their acreage in Delacour. Their place is close to the Calgary airport. Directions are provided below.

David and Lori are going to give us tips and tricks on auto detailing including how to restore Single Stage paint. We will learn how professionals do interior and exterior detailing, fabric cleaning, multistage polishing and hand waxing. The discussion and demonstration will be applicable to our Model A's as well as our modern cars.

To get to the Clayton's place:

- Take Deerfoot Trail / Hwy 2 to Country Hills Blvd.
- Go EAST on Country Hills Blvd to Range Road 284
- Go NORTH on R.R. 284 to the North Entrance of Prairie Royal Estates
- Follow the road around to 400 SHORE DR. S.E.
- Call David at (403) 287-8244 or Mike at (403) 828-8283 if you get lost.

See you all there!

## Highwood Pass Tour

On July 22, a small but intrepid group went for a tour over the Highwood Pass.

Those present were Gary, Bobbie & Michael Callander; Jim & Mary Callander; Dave & Vivien Dodd with grandkids; Ross & Caroline Rodman; Colin & Marilyn Outrim; Paul & Kathy Chudek and Jeff Brooks with his two children, Zach and Avery. There were 5 model A's and 2 modern irons.

We gassed up at the PetroCan on Highway 22 and headed west. We made a short pitstop at the entrance to Kananaskis, then headed towards the pass. Near the turnoff to the Kananaskis Lakes, we had to make a quick stop for a large group of bighorn sheep that ran onto the road. That was exciting to see. Then we chugged up to the summit of the pass. It is reportedly the highest paved road in Canada. It was very busy there, but we made a stop to look at the scenery.

After that, we stopped for a nice lunch at a small picnic site along the road. This was followed by another stop at the forestry road store. Ice cream treats were enjoyed there and a group photo taken.

We continued on to Longview, where the group broke up and headed home their different ways.

The total round trip was about 200 miles, and fortunately required no roadside seminars.

It was a very enjoyable tour. Thanks to everyone that came!

... Gary Callander

## Tupper Coupe Project Update

### *Greetings once again fellow SCMAFC Members!*

This is the second in our probable series of irregular updates to keep you informed re: the status of the Club's "Tupper Coupe Project".

**To recap a bit**, - - further to the background information contained in our first status report, a goodly number of club members made the trip to Three Hills on August 19th to not only help Ted with his sale but to purchase a proliferation of Model A items and enjoy the comraderie of the day.

**As mentioned in report #1** the acquisition of many of the parts required has begun (wood kits, sheet metal items, etc., have now been received), and various sub-component work bees have been and will be scheduled in due course. Any club member wishing to learn or contribute to the project should contact those listed below in order to participate in whatever component of the project they may be interested in either helping with or learning about. With the frame, front and rear end assemblies, and the springs having now been dealt with they will be assembled shortly in order that this basic assemblage can be pushed around to facilitate full access to the clubhouse for alternate purposes.

**Members currently working** on sub-components of the project include:

**Paul Chudek**: - - **Note:** Besides ordering parts and working to assemble the aforementioned 'assemblage', Paul has scheduled an 'engine disassembly work bee/seminar' for 1:00PM on Saturday, September 1st at the Clubhouse. Besides Paul an additional couple of knowledgeable club members will be in attendance to explain the process and answer whatever questions may arise from those of you who decide to attend.

**Colin Outtrim**: - - besides painting the frame Colin has dealt with a number of sheet metal components to date and has also hosted a sheet metal procedures seminar. He is now involved with the restoration of the firewall and cowl assembly and having restored the front fenders may also consider upgrading the pair of rear fenders donated by Dan Adams.

**Ron Rigby**: - - has done the initial four wheels, the rear end, and the front end upgrades, and is now completing the spare wheel assemblage while trying to find a 6 volt windshield wiper motor he thought he had.

**Jim Leew**: - - did a great restoration of both springs and is now beginning to disassemble and upgrade the steering column assembly.

**Dan Adams**: - - has contributed quite a number of parts to the project and has taken both the generator and starter in order to restore them.

With he and Dianna having previously restored an award winning Special Coupe of their own we are hoping we can convince him

to act as our 'Workshops/Work Bees Lead' when it comes to restoring the cab of the coupe.

**Glenn Smith**: - - has donated a project 'push around' wheel and is rebuilding both the transmission and the carburetor.

**Dave Dodd**: - - is restoring the distributor.

**Keith Robinson and Paul Chudek**: - - arranged to have the radiator rebuilt using components they supplied and thus saving the club +/- \$500.

**Barry Osborne**: - - has taken the gas tank in order to have it steamed and re-lined.

**More in due course** but for now please don't hesitate to contact any of the aforementioned members with respect to participating in, contributing to, or learning about whichever aspect of the project you may be interested in.

**Ron Rigby**

**At the outset - Coupe in the Tupper shop**

**Arriving at the club garage/clubhouse**

**Rear end and frame after sandblasting**

**Frame painted**

## Henry's 90th Birthday

When you survive to your 90th Birthday, it's an occasion to celebrate, especially if you are a car!

Our '28 Sport Coupe, which we call Henry, is one of the few Model A's to have the date stamp on the firewall.

It is clearly marked as 8-31-28, which means that on August 31, it has been around for exactly 90 years.

So on that day, we decided to honour the occasion with a chocolate Birthday cake and a toast in his honour. Unfortunately, being 90, he doesn't have any teeth to eat it with. He had to be content with a bit of bubbly poured into the radiator.

Afterward, we hopped in and drove out to buy ice cream cones.

Looking forward to celebrating the big 100 in 10 more years!

...Gary Callander

## Tupper Parts Sale - August 19/18

It proved to be a good day for our scheduled "Tupper Parts Sale" and there was a decent turnout of both Club Members and some non-members who not only bought quite a number of items but helped extensively with the sale and the mid-day barbecue. With Ted now replacing his Dad John as a member of the Club, after he updates his inventory list we have agreed to modify the list we have posted on our website accordingly in order to let our members know what items are still available if they give Ted a call.

The following Club Members participated in the event:

Dan & Dianna Adams, Ewald Braun, Jeff Brooks, his youngsters, and their Grandma, Gary & Michael Callander, Paul & Kathy Chudek, Harold Craig, Clarence Creaser, Al Friesen, Lloyd Glover, Jim Leew, Armand Mullie, Barry & Shaireen Osborne, Ron & Irene Rigby, Glenn Smith, Ted Tupper, Andy Vair, and Murray Walkemeyer.

A pleasant day indeed and we thank them all for their involvement!

*Ron Rigby, - - on behalf of the event organization Team.*

**Yes, it's for sale 'AS IS'**

**BBQ was a hit with attendees.**
